

WELCOME ITALIAN ARMS DELEGATES

First of "Big Four" Powers to Arrive in Washington for Conference

BRIAND TO RETURN NOV. 23

Washington, Nov. 2.—Government officials will receive today the first to arrive in Washington of the authorized delegates of the four Powers invited to participate in the limitation of armament conference—the three Italian delegates, headed by Senator Carlo Schanzer, former Minister of the Interior and president of the group which reached here last night from New York.

A round of ceremonial visits also was made today by the Italian delegates who arrived on the same special train with the Italian group—Mr. Wellington Koo, Chinese Minister to Great Britain and former Minister to the United States; and Mr. Wang, Chief Justice of the Chinese Supreme Court.

These also were the first to arrive of the plenipotentiary delegates to the associated discussion of Pacific and Far Eastern problems, as distinguished from those of the nations to participate in both phases of the conference program.

The State Department has received no official intimation of any change in the plans of Premier Lloyd George to attend the conference, but the situation in England permitted his departure for this purpose.

On Board the Steamer Lafayette, Nov. 1.—By Wireless via Paris to A. P.—Premier Briand is not likely to attend more than the first ten days of the armament conference sessions in Washington, according to present indications.

London, Nov. 2.—(By A. P.)—A. J. Balfour, head of the British delegation to the Washington conference, left London this morning for Liverpool. He will embark in that city this afternoon on the liner Empress of France for Quebec, from which city he will go direct to Washington, expecting to arrive there November 10.

ARMS DELEGATES HOPEFUL AND FIRM

New York, Nov. 2.—Several delegates to the Arms Conference arrived yesterday on the liner Olympic, and were asked for expressions of opinion on the conference.

Lord Lee, first lord of the Admiralty and British delegate, said: "The world has learned that militarism, wherever it exists, is a disease which must be cured. It is a disease which has been spreading since the beginning of the world, and it is a disease which has now reached its most virulent stage."

DROWNED IN STORM OFF ANGLESEA

JOHN OSCAR JOHNSON

Three of eleven fishermen who met death Monday afternoon when two boats went down in a heavy sea over Hereford Bay, a mile from shore. Johnson was captain of one of the boats.

Sea Still Holds Eight of Dead Fishermen

Continued from Page One. The search for the bodies of the eight fishermen who were reported missing after the capsizing of two fishing boats in Hereford Bay, a mile from shore, Monday afternoon, has been hampered by the rough sea and fog.

John Miller, a garage keeper near the coast guard station, said today he had offered to repair the coast guard boat engine Monday when it could not be mended to run, but his offer had been refused.

The fishermen complain also that there could not have been a proper patrol of the beach, because otherwise the bodies of John Lundy and the Stevenson brothers, found yesterday morning, would have been found earlier.

Some of the fishermen hold the opinion that other bodies may have been blown out to sea by the wind, but they are unwilling to say so.

John Johnson, twenty-eight years, Captain Charles E. Johnson, fifty-four years, Captain Gudwald Jensen, fifty-six years, George Nickless, thirty-three years, Harry Keen, thirty-five years, M. T. Damiano, thirty-two years, and Captain Conrad Hanson, fifty years.

When the theory is correct or not, it is the belief of the great majority of seafaring men in Anglesea that the breaking sea was the cause of the tragedy.

Whether the theory is correct or not, it is the belief of the great majority of seafaring men in Anglesea that the breaking sea was the cause of the tragedy.

Resolution Censuring Harvey Is Rejected

Continued from Page One. Colonel by the courtesy of a South Carolina Governor, has seen fit in a recent public address to cast reflection upon the motives actuating the American committee for the limitation of armament.

Whereas, such statements, even if true, would be peculiarly out of place as coming from the public spokesman for a great people; but being, as they are, false and untrue, they constitute a gross and malicious slander on the good name of the entire American people, and particularly upon the memory of those who have given their lives for the sake of humanity.

Now, therefore, be it resolved, that since the death of George W. Harbord at the Flieger's banquet in London, a miserable cannibal, worthy only of a little mind, dominated by envy and jealousy and incapable of appreciating the higher ideals of life, and therefore, ascribing to other the only motives which it is able to understand, that we, therefore, respectfully represent to the President of the United States that the said George W. Harbord, in his capacity of any office whatsoever in the gift of the American people, and that a public rebuke and an immediate recall would be punishment and in fact compared with the punishment which he has already received, and that the national adjutant be instructed to send a copy of this resolution to the President of the United States.

Adoption of Report Opposed. Opposition to the adoption of the report on Colonel Harvey was voted from the floor of the American Legion, which is the American Legion, who said he heard the address of the Ambassador, and that he was not in a position to say whether or not it was true.

Members of the committee on resolutions said prior to the presentation of their report that a resolution censuring President Harding for signing the armament convention would be taken up by the committee late last night for discussion.

The Americanization Committee's report was adopted by the committee, and the committee on resolutions was asked to report on the subject of the armament convention.

The committee on resolutions was asked to report on the subject of the armament convention.

Arms Parley Figure

Harvey, American Ambassador to Great Britain, for a speech he made in England soon after his arrival there, in which he discussed the reasons why the American went into the war, but this proved also to be only a rumor.

The Bergdoll resolution read: "Whereas, Grover C. Bergdoll, notorious service evader, is still at large, and

"Whereas, his escape and the failure to apprehend this arch sinner will remain a blot upon the records of this nation until justice is done;

"Now, therefore, be it resolved, that demand is made for the exercise of every available method to secure the return of Grover C. Bergdoll to the United States for the completion of his sentence as a deserter and for his trial for any crime committed by him against the laws of the United States.

Be it further resolved, that a demand is made for the prompt trial of every one who may have been implicated in his escape from the United States.

Distinguished Visitors Leaving. Three of the distinguished visitors here for the convention left early today for the East. They were General Diaz, of Italy; Admiral Beatty, of Great Britain; and Vice President Coolidge.

Other visitors including Marshal Foch, General Baron Jacques and General Pershing, were to spend a part of the day at the Flieger field, Marshall Foch and General Pershing having on their program a trip to Leavenworth, Kan., to look over the Federal prison and military barracks there.

The American general will also leave tonight aboard a special train for Omaha, where he will attend the international congress the latter part of this week.

VETERANS COMBINING WORK AND PLEASURE. Special Dispatch to Evening Public Ledger. Kansas City, Nov. 2.—While the business of the American Legion convention is proceeding with rapidity and the entertainment of distinguished guests is about over, the delegates and their friends are enjoying the hospitality of Kansas City in an original and unprecedented manner.

Beginning with the usual celebration of hallmarks, the visitors have carried out their own plan of a real celebration by arraying themselves on either side of the main streets in the central parts of the city, stopping at the Flieger field, and then to the collection of waste paper.

No arrests have been made, but all of the hotels and restaurants are under a heavy police guard, and the streets of Kansas City will never need another convention to remind it of the one that is going on during this week.

The future of the convention was a colorful parade, which was held yesterday afternoon. Fully three-fourths of the participants were in uniform, and it took the entire column three hours to pass the reviewing stand, which was held by the city.

Members of the committee on resolutions said prior to the presentation of their report that a resolution censuring President Harding for signing the armament convention would be taken up by the committee late last night for discussion.

Sutherland Chief U. S. Parley Aide

Continued from Page One. The country's ablest practitioners. But he has never enjoyed the large fees that other men of equal reputation have achieved. He felt that he could not afford a place in the Cabinet.

Of all public men in Washington he most resembles Mr. Hughes, but he has not the conservative either of physique or personality that the Secretary of State has. He is shy and sensitive as Mr. Hughes must have been shy and sensitive at the outset, but he has not acquired the servicable exterior that Mr. Hughes now has.

His is one of the most sensitive of faces. His manner is nervous. He talks to you even on the most trivial of subjects. His conversation quivers. His hands move constantly.

He has not the easy and friendly manner of Mr. Hughes, but he has the same keenness of vision and the same keenness of intellect. He is a man of high character and high ability.

Self-Advancement Distasteful. He once said to me: "I can never bring myself to run for public office again." He was once Senator from Utah and was recognized as the ablest lawyer in the Senate. But he could not bring himself to run for a second term in the Senate. But he could not bring himself to run for a second term in the Senate.

Having high abilities and this temperament, he has chosen the other way of life. He has been satisfied to be recognized by the discerning few, to have a standing in the American bar, which he has been president, which he has not with the big corporations who have come to give.

His intellectual integrity, his disinterestedness, his talent for friendship, make him count.

"We all love George Sutherland," and take it out in making him president of the Bar Association and in saying that he is the best lawyer that has been in the Senate for years, but not in making him rich or in placing him in the chief justiceship or the secretaryship of state.

He once said to me: "I sit at the feet of Elihu Root." It was probably

Watchman and Patrolman Discover Man in Store at 505 Market Street. Special Patrolman Basenfelder discovered the glass broken out of the front door of Abram's army and navy store, 505 Market street, early this morning, and after summoning a number of patrolmen Peter Lann, fifty-one years old, was found hiding in the establishment.

When the patrolmen threw their flash lights on him he was just drawing a gun. Patrolman Jacobs, of the Fourth and Race streets station, rushed him and took away the weapon.

Audubon's War Victim to Be Buried

Audubon, N. J., Nov. 2.—The body of William Trout, the one local boy who made the supreme sacrifice in the World War in France, arrived Monday night and was taken to the home of his parents, Mr. and Mrs. Trout, 248 Oakland street, whence a military funeral will be conducted Sunday in charge of the Audubon Post, American Legion. The Rev. George W. Yard, of the Methodist Episcopal Church, will officiate, and Frank H. Foster will have charge of the burial.

Mr. Sutherland is marked for the bench, and common belief is that he will fill the next vacancy on the Supreme Court. He will like the selection of the bench for the reason that he hated the open fight for office at the polls. He will like the fact that he will be able to have the facts and the principles before him and nothing to do but apply the one to the other.

On this bench he will be conservative, much more conservative than Mr. Hughes, much less the politician than Mr. Taft. He is more detached than either of them from the current of life.

In the conference he will be a Harding man. He has been much with the President, understands him, and is in close agreement with him, though he is much more of anti-League man than Mr. Harding, who, it now appears, opposed the League more to hold his party together than because of strong convictions. Mr. Sutherland has strong anti-League convictions.

Though of English birth, he is a good deal of an isolationist, rather than the Knox point of view. He does not—or didn't a short time ago—believe in the cancellation of any of the allied debt to this country, and he is not certain what Mr. Harding's policy on this point is now.

He once said to me: "I can never bring myself to run for public office again." He was once Senator from Utah and was recognized as the ablest lawyer in the Senate. But he could not bring himself to run for a second term in the Senate. But he could not bring himself to run for a second term in the Senate.
